Teamwork, Flexibility,
Problem Solving, Hard
Working, Determination

Professional Profile

Hello, I'm a passionate programmer looking to improve and contribute my coding skills. I've worked on several projects in several fields: e-commerce platform, social app, transactions app, gamedev, etc... I work mainly using MERN stack but also open to using other technologies. As I enjoy coding as a whole, I'm open to work on any type of software.

Skill Highlights

- ReactJS, React Native
- Javascript/Typescript
- NodeJS
- Firebase
- Git
- JQuery
- Java
- php
- Json, mySQL, MongoDB
- css, sass, Bootstrap, html,Figma
- Design Patterns, REST API
- System/Unit Testing

Experience

Apex Oracle, Full Stack Developer Intern at Computec Ltd- Ashrafieh, Lebanon

- Oracle PL-SQL language features.
- Oracle Apex Programming language.
- Development of a system allowing company staff to prepare site visit data on their mobile devices.
- Testing of the above system to ensure proper integration with the back office system.

C#, Full Stack Developer Intern at Emirates Lebanon Bank- Ashrafieh, Lebanon
